Public Notice #07-095-PSD-N-H-CE

Date: December 7, 2007

**SANTEE COOPER (PEE DEE GENERATING STATION)
2651 SOUTH OLD RIVER ROAD
PAMPLICO, SOUTH CAROLINA
(FLORENCE COUNTY / REGION 4 FLORENCE EQC OFFICE)
DRAFT PSD AIR CONSTRUCTION PERMIT NO. 1040-0113-CA.1**

Santee Cooper applied to the SC DHEC, BAQ, for a Prevention of Significant Deterioration (PSD) air permit to construct and operate a new coal-fired power plant on a 2,709-acre greenfield site located southeast of Florence, near Kingsburg, South Carolina, on the Great Pee Dee River. A Preliminary Determination, Draft PSD Construction Permit, and Statement of Basis were written by the BAQ outlining the proposed project and applicable regulations. This information was previously placed on public notice on October 9, 2007, and open for public comment through December 7, 2007. Additionally, DHEC held a public hearing on November 8, 2007, at the Hannah-Pamplico High School to receive oral and written comments.

DHEC has extended the original public comment period on this proposed plant. Written comments will now be accepted through close of business on January 22, 2008. DHEC has realized that the draft permit that was placed on public notice and made available for public comment contained incorrect mass emission limits (tons per day). The mass emission limits are more stringent and lower in the correct version of the draft permit. This draft permit has not yet been approved and is open to comment from the public. The corrected draft permit documents will be made available for review through January 22, 2008, at DHEC's Columbia Office listed above and at the following locations:

SC DHEC, Region 4 Florence EQC Office, 145 East Cheves Street, Florence, SC 29506 at (843) 661-4825.
and
Pamplico Public Library, 100 East Main Street, Pamplico, SC 29583 at (843) 493-5441.

All comments received by January 22, 2008, will be considered when making a decision to approve, disapprove, or modify the draft permit. Written comments may be submitted by any of the following: e-mail through DHEC's BAQ website listed below; fax at (803) 898-4079; or U.S. Mail addressed to Joe Eller at the DHEC Columbia Office listed above.

DHEC's BAQ has established a page on its website where information related to the proposed Santee Cooper Proposed Coal-Fired Power Plant may be obtained. This website is updated to report new developments related to the proposed project. This public notice, the permit application, and other corrected draft permit documents may be viewed on this website. Once a permit decision is made it will be posted on this website as well. Comments regarding the proposed plant and requests to be added to DHEC's mailing list may also be submitted through this website. The website address is:
